SURAT - Largest Manufacturer of the Man-Made Fabrics

Surat, an emerging city in the State of Gujarat, is known as the textile city of Gujarat. The textile industry is one of the oldest and the most widespread industries in Surat. The industry of Surat is mainly engaged in the activity of polyester yarn production, weaving, processing as well as embroidery and other value addition on sarees and dress materials. It is well-known for its production and trading of synthetic textile products, dressing up entire regions in India and exports printed fabrics to all over the world.

The industry has grown considerably over the times. According to a recent data, textile production of Surat has been growing continuously for the last 10 years; one of the main reasons behind the growth is the ability to adapt to changes and the latest trend. It is also known necessary to update the technology used at the industry as well as the infrastructure. The current supply and demand factors provide very conducive and favorable business and market environment for the technological investment. In such scenario, there is a big need to the industry to upgrade itself with the latest technological developments taking place worldwide.
